

Amino Acid Analysis, Quantitative, Urine

Order Name: AA QN UR Test Number: 3617455 Revision Date: 09/13/2018

| TEST NAME | | | METHODOLOGY | LOINC CODE | |
|--|--|---------------------------------------|-------------------------|-----------------------|--|
| Amino Acid Analysis, Quantitative, Urine | | Liquid Chromatography/Mass Spectrosco | <u>py</u> | | |
| SPECIMEN REQUIREMENTS | | | | | |
| Specimen | Specimen Volume (min) | Specimen Type | Specimen Container | Transport Environment | |
| Preferred | 5 mL (0.2 mL) | Urine, Random | Sterile Urine container | Frozen | |
| Instructions | Notes: 0.2 mL (Note: This volume Does not allow for repeat testing.) Specimen Type: Plastic urine container without preservative Specimen Storage: FREEZE Specimen Collection: Not Available Specimen Stability: Ambient: Unstable, Refrigerated : Unstable, Frozen: 14 days | | | | |
| GENERAL INFORMATION | | | | | |

| GENERAL INFORMATION | |
|---------------------|---------------------------|
| Expected TAT | 3-7 Days |
| Notes | Labcorp Test Code: 700140 |
| CPT Code(s) | 82139 |
| Service Provided By | Oklahoma, Inc. |
